

Downloading Data

1. From the homepage, find the study card for your study of interest under “Explore the Studies”. You can scroll to the right to see more studies using a laptop trackpad, or you can hover your mouse under the cards to get the grey scroll bar to appear.

2. Click on “Download Data”

- Download the files you want by clicking on the blue links. Note that the first file listed is a file where all of the data have been merged into one file, so you have one row per observation or sample, and data collected at the participant-level (such as date of birth) will be repeated for every observation for that participant.

Note: All dates were obfuscated per participant through the application of a random number algorithm that shifted dates no more th
